

6 REASONS TO WHITEN YOUR SMILE FOR THE NEW YEAR

Opalescence®
tooth whitening systems

It doesn't matter if you use Opalescence Go® prefilled whitening trays, Opalescence® PF take-home whitening, Opalescence® Boost in-office whitening, or a combination of the three—the new year is a great time to whiten your smile!

New Year Resolutions

For many, the new year also means setting new goals. Brightening your smile with Opalescence whitening is one resolution that is easy to keep, because with the Opalescence whitening family, you will have bright, beautiful results in no time. Speaking of resolutions...

Tobacco Stains

Did you know that quitting smoking is the fourth most popular resolution? Erase tobacco stains, motivate yourself to stay committed to your new, healthy lifestyle, and give yourself a fresh start by whitening your teeth.

Coffee and Tea Stains

Many of us love our coffee and tea, which can unfortunately leave unsightly stains on our smile. When you whiten with Opalescence products or use them for regular touch ups, it's easy to fight coffee and tea stains.

Feel Your Best

There is no better way to start off the new year than feeling like your best, most confident self. A bright white smile helps people feel more confident and happier with their appearance. You deserve to treat yourself by taking this step!

Holiday Indulgences

Highly pigmented foods like red wine, cranberry sauce, tomato sauce, and berries can contribute to the yellowing of teeth. Make up for any holiday indulgences with a whitening treatment to get your bright white smile back!

New Year, New You

The new year is full of new beginnings and promises of great things to come. This year, make your smile as bright as your outlook! Welcome 2018 with a beautiful, brighter smile!
